“Industry, it’s now!”

Algeria's industrial sector is accelerating

- Import substitution
- Modernization of production units
- Upgrading
- Push toward exports

The needs are massive:

- Factory construction
- Machines & processes
- Raw materials
- Industry 4.0
- Logistics & services

Industry Grand Expo returns in 2026 for its second confirmation edition.

IGE brings together the entire industrial chain: from **design to production**.

Our objective is clear:

- > Provide **more solutions** to Algerian industrialists.

Participating in IGE means joining this dynamic.

IGE 2026 is not just a trade show.
It is a **strategic platform**.

IGE 2026 places you at the heart of industrial investment decisions in Algeria.

Conferences & Expertise: *knowledge at the heart of the industry*

Think, debate, decide — IGE 2026 conference area

Alongside the exhibition, **IGE 2026** will offer a program of conferences led by national and international experts. The themes are the most strategic for Algerian industry: **digitalization** and Industry 4.0, **robotics** and **automation**, research & development, resource management, international standardization and certification.

These sessions provide participants with a privileged space to analyze trends, **share** best practices, and identify concrete **partnership opportunities** — beyond the exhibition floor alone.

**KICK
FACTORY**

The industry of tomorrow is taking shape today

Kick Factory: honoring young industrial talents

IGE 2026 will also host the **Kick Factory**, a **competition** dedicated to young industrial entrepreneurs. Candidates from the **Injaz EIDjazair** program will present their **innovative projects** to a jury of industrialists, investors, and sector experts.

The **best projects** will receive an **official IGE prize**, giving winners visibility, credibility, and direct connections with the Oran and national industrial ecosystem.

Oran, the new industrial hub of the Mediterranean

Oran is a region highly conducive to industrial investment. The wilaya of Oran is experiencing an unprecedented dynamic in the non-petrochemical industrial sector, with the **emergence of clusters** in **steel, mechanical, food, and pharmaceutical industries**, strengthening its position in the Mediterranean basin. It is home to **Renault, Sorfert, Unilever, Tosyali**, and Knauf (source: Oran Regional Directorate of Commerce).

Industrial land is developing rapidly. New industrial zones are being created in Taфраoui (**596 ha**) and Bethioua (**592 ha**), targeting the pharmaceutical, steel, and mechanical sectors.

The Western region — Oran, Sidi Bel Abbès, and Tlemcen — concentrates more than **1,900 ha of developing industrial zones** and hosts **fast-growing** sectors: pharmaceuticals (14 laboratories), agri-food, chemicals, and automotive. In a country where industry captures 37% of national investments, Oran is establishing itself as one of the most active emerging hubs.

Be present where your market is waiting for you.
