

X RUSSIAN WATER
CONGRESS

 **VODEXPO 2026**

RUSSIAN FLAGSHIP CONGRESS & EXHIBITION IN WATER SECTOR MANAGEMENT

**Innovations, Expertise,
Sustainable Water
Development**

**MAY 20-22, 2026. GOSTINY DVOR
4 ILYINKA ST., MOSCOW, RUSSIA**

- INDUSTRIAL WASTEWATER TREATMENT
- INDUSTRIAL WATER TREATMENT AND CONDITIONING
- PIPELINE INFRASTRUCTURE AND SYSTEMS
- CIRCULAR ECONOMY AND SLUDGE MANAGEMENT
- HYDROPOWER AND RENEWABLE WATER ENERGY
- HYDRAULIC ENGINEERING AND LAND RECLAMATION
- WATERBORNE TRANSPORT AND INFRASTRUCTURE
- PROTECTION AND CONSERVATION OF WATER BODIES
- INTERNATIONAL SCIENTIFIC AND TECHNOLOGICAL COOPERATION

VODEXPO: EXPERTISE, TECHNOLOGIES & EQUIPMENT FOR THE WATER SECTOR

RESULTS OF 2025

30 countries

83 regions
of the Russian
Federation

more than 150 media
representatives

\$2.5 BILLION

The State invests
in water supply
and sanitation infrastructure
in 2025-2030

The State supports foreign investment projects:

- to create or modernize the industrial production
- to develop and implement modern technologies for mass production of industrial products in Russia

engineers
and technicians

AUDIENCE

Water users:
utilities, industry,
agricultural
enterprises
and hydropower stations

Government
authorities

Equipment
manufacturers
and suppliers

State corporations
& financial
institutions

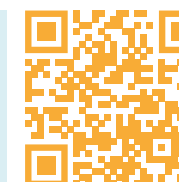

Design & construction
and engineering
companies

Scientific
and expert
community

EXHIBIT ON VODEXPO

- come to increase sales
- come to find new markets for your products
- expand international contact base

VODEXPO is the best gate to enter the Russian market

Direct dialogue with government and business:

- opportunities and limitations for the sale of foreign equipment in Russia
- consultation on measures to support foreign industrial projects in Russia that involve the introduction of modern technologies

BUSINESS PROGRAM

✓ 3 days ✓ 40 thematic events ✓ over 300 speakers

- Technological development. Innovative equipment & technologies
- Government support programs (including "Infrastructure for Life" and "Water of Russia")
- Updates in environmental legislation
- Digitalization of the water sector, digital technologies
- Circular economy
- Human resource development
- Thematic expert discussions on water industry challenges

INTERNATIONAL SCIENTIFIC AND TECHNICAL COOPERATION:

- UN: International decade for action "Water for Sustainable Development"
- Official delegations from foreign countries (in 2025: Belarus, China, Kyrgyzstan)
- Exhibition of innovative equipment and technologies from foreign countries:

- **WATER SUPPLY AND SEWERAGE SYSTEMS**
 - Pumping and filtering equipment
 - Physical-chemical method for the purification of water
 - Pipes and fittings
 - Technologies for stormwater control and canal maintenance
 - Reagents, filtration media and materials for water and wastewater treatment
 - Aeration and biological cleaning system
 - Membranes and membrane solutions
 - Modular units for the needs of water supply, sewerage
 - Wastewater sludge management
 - Automation, dispatching and digitalization
 - Water quality control and monitoring
 - Services, engineering and design
