REGION OF ANTOFAGASTA: THE HEART OF MINING WITH A VOCATION FOR ENERGY

20%

Of the energy grid is
renewable energy

US\$ 9,599 billion
in energy projects

1st. in installed electrical
capacity

29 generation projects
100% from renewable energy

6,354 megawatts
to the National Electric Grid

#Decarbonization

#CarbonFootprint

#RenewableEnergies

DESALINATION

CHILE

30%

OF WATER
IN MINING
IS SEAWATER

11.3 m³/s

EXPECTED SEAWATER
CONSUMPTION BY 2023

14

DESALINATION PLANTS
FOR MINING USE IN OPERATION

ANTOFAGASTA REGION

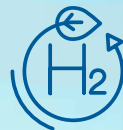

6

DESALINATION
PROJECTS FOR MINING

70.3%

SHARE OF
DESALINATION
PLANTS AT
NATIONAL LEVEL

THE TIME FOR GREEN HYDROGEN IS NOW

Chile's vast potential in the production of green hydrogen, and its commitment to carbon neutrality by 2050, prompted the development of a National Green Hydrogen Strategy in 2020.

IN GH2

DO YOU WANT TO EXHIBIT AT EXPONOR 2024?

BUSINESS AREAS PRESENT AT EXPONOR

- Heavy equipment, processing equipment, machinery, parts **(32.3%)**.
- Energy, engineering services and electrical items, automation, and control **(13.3%)**.
- Logistics, telecommunications, and complementary services **(10.7%)**.
- Other inputs for mining **(8.2%)**.
- Process and construction engineering **(7.2%)**.
- Government institutions and associations **(7%)**.
- Hardware stores and tools **(5.6%)**.
- Industrial and civil safety **(4.6%)**.
- Media **(3.2%)**.
- Others **(2.5%)**.
- Exploration, operation, test drilling and drilling **(2.1%)**.
- Mining companies **(1.5%)**.

CHALLENGES FOR SUSTAINABILITY

Water Efficiency Renewable Energies
Mining 4,0 Sustainable Mining Digitalization
Productivity Energy Efficiency
