Product/Company details:

From humble beginnings in the year 2016, Platinum Industries today stands tall as one of the leading manufacturers of PVC & CPVC Additives, Metallic Stearates & Lubricants in India. The company provides end-to-end additives solutions for the entire range of polymers. Committed to setting international benchmarks, driven by innovation and the desire to create a sustainable ecosystem, Platinum Industries is among the very few chemical companies in India that is specializing in manufacturing superior quality, economical lead-free additives, stearates and lubricants which are used in the manufacturing of PVC pipes, thus playing an important role in restricting the penetration of lead in water. The company's state-of-the-art manufacturing plant and a robust R&D facility in Palghar are continuously innovating to create stabilizers and other chemicals that can be used in a wide range of applications.

One of India's leading PVC & CPVC
additives manufacturers.

When it comes to stabilizers, you're in the best hands with

Stall No.: 603 & 604

Product/Company details:

The Kingdom of Saudi Arabia is one of the largest Petrochemicals producing countries in the world. Naturally, conversion industries were built to produce products for end-users.

Enhancing this fact and to go along with the Saudi Industrial Development, RAFFIA FACTORY was established in late 1996, by pure Saudi investment of 24,000,000 twenty-four million Saudi Riyals Capital.

Commercial production was started in early 1997, concentrating on producing Woven Sacks out of Polypropylene yarn with an initial capacity of (60,000,000) sixty million sacks per annum. Due to the increase in demand for our products, both locally and abroad and the trust given to us by our valuable clients, and to meet this demand an expansion was made in 1999 raising the capacity to reach (90,000,000) ninety million sacks per annum, out of which two million heavy duty JUMBO bags with capacity ranging from 0.5-1.5 tons.

Additionally, the factory produces Leno bags, Baler Twine, Rope, Agri Twine, Film/Liner, Cable Filler yarn, Sleeping and Floor Mats - produced from fibrillated PP yarn.
